SRC Series

Ultrabake™ Grounding Caps

Purpose

Ultrabake™ Grounding Caps are designed to mask rectangular tabs; they are effective at masking rectangular grounding or earthing tabs on sheet metal items such as computer cases and PCB holders

How the product is used

The cap is applied by being pushed over the rectangular tab. The cap is removed by being pulled off. The larger sizes of this cap have a tapered opening which allows the coating material to come close to the inside dimensions of the cap.

Recommended for

Powder coating, E-coating, Plating, Anodizing, Spray painting

Temperature range

Maximum temperature 600°F (315°C)

Storage conditions

Items should be stored in dry conditions at an ambient temperature of between 55°F (13°C) and 85°F (30°C). It is important to rotate stock and use the product in the order that it is received.

Design features

- **Dual Purpose** - The cap be used as a plug for small rectangular holes or slots
- **Flexible** - The cap is flexible so it can fit a range of different tabs
- **Tapered Opening** - Larger sizes have a tapered opening which allows coating to reach the edge of the tab
- **Reusable** - The caps are reusable depending on the application
- **Tight Fit** - Caps are flexible enough to stretch over tabs and form a tight fit
- **Color coded** - The caps are color coded to ease identification and sorting
- **Identification** - The Shercon name is on the product

Custom sizes and colors

Custom sizes are available of this design. Custom colors are available; however, they are subject to a minimum order quantity.
