SK Series

Starter Kits

Purpose

A series of starter kits each containing a small selection of masking products that can be used together.

How the product is used

Each kit is packaged in a plastic box, which is sectionalized and labeled to identify the parts.

Recommended for

These kits are ideal for research and development work, small runs or for hobbyists

Temperature range

Dependant on the contents of each kit

Storage conditions

Items should be stored in dry conditions at an ambient temperature of between 55°F (13°C) and 85°F (30°C). It is important to rotate stock and use the product in the order that it is received.

Design features

- **Quantity** - A small number of items in each kit
- **Range** - Kits generally contain a range of the most popular sizes
- **Packaging** - Kits are split into sections and each section is labeled
