ST Series

Ultrabake™ Tubing

Purpose

To cover plain and threaded studs or shafts; it will mask off the studs and can be used to mask off areas of shafts.

How the product is used

The tubing is applied by being pushed over the stud or shaft. It can be used as a plug by being inserted into threaded or plain holes. However, on holes we would recommend the UP or SPP series of plugs. Tubing is provided in coils on a drum.

Recommended for

Powder coating, E-coating, Plating, Anodizing, Spray painting

Temperature range

Maximum temperature 600°F (315°C)

Storage conditions

Items should be stored in dry conditions at an ambient temperature of between 55°F (13°C) and 85°F (30°C). It is important to rotate stock and use the product in the order that it is received.

Design features

- **Flexible** - The tubing is flexible so it can fit a range of different diameters
- **Reusable** - The tubing is reusable depending on the application
- **Sizes** - The tubing can be cut to length.

Custom sizes and colors

Custom sizes are available of this design. Custom colors are available; however, they are subject to a minimum order quantity.
